ORMApiogg EVENT

EV2	Ø mm	63	63	63	75	75
	mt	250	300	320	200	250

The **ORMApiogg Event EV2** is the perfect choice for optimised irrigation, providing maximum performance with minimum expenditure of resources. Designed to last, it offers low running and maintenance costs without compromising on quality. Thanks to its versatility and ease of use, it is a benchmark for farmers who focus on reliability and innovation, season after season.

With ORMApiogg EV2, irrigating becomes a faster, more efficient and cost-effective process.

Hidra (OP 63 mm)

Royal (OP 75-82 mm)

OP0014

code	STANDARD EQUIPMENT
EV2	- lower frame with removable drawbar attachment - front mechanical support leg and two lateral stabilizing feet - mechanical lifting of sprinkler trolley and telescopic mechanical stabilizing brackets - powder-coated sheet metal side protections for the reel - galvanized frame and painted reel - 360° reel rotation - high-efficiency turbine unit, operating even at low pressure - flanged turbine on the gearbox with external bypass, speed regulator, and compensator - four-speeds gearbox with automatic disengagement - PTO on the gearbox for quick rewinding - automatic disengagement for out of shape polyethylene pipe retrieval - automatic brake - hose guide with winding screw - high-resistance polyethylene pipe - manual winding crank - glycerine-filled pressure gauge - digital meter counter - safety guards - galvanized sprinler trolley with 3 wheels and adjustable track width - sectorial sprinkler with 3 standard nozzle set

code	on request: mechanical components on ORMApiogg
OP0028	inlet valve for overpressure shut-off (for pressurized water equipment)
OP0008	outlet valve for under pressure shut-off (for pumps and motor pumps with pressure switch)
OP0030	hot galvanized reel
OP0017	diesel engine for hydraulic hose rewinding (instead of turbine)
OP0018	electric starting for diesel engine
OP0068	20 lt fuel thank for diesel engine

code	on request: additional accessories
OP0002	5 m flexible connection pipe with joints
OP0002F	filter for flexible connection pipe
OP0011	extension for sprinkler trolley
OP0012	under-trees trolley with adjustable jets
OP0016	two iron weights for standard trolley
