ORMApiogg EVENT

EV9	Ø mm	125	125	140	150
	mt	470	500	400	350

The **ORMApiogg Event EV9** is the perfect choice for efficient and sustainable irrigation, reducing water consumption and optimizing every resource. Designed for high performance and long-lasting durability, it ensures low management and maintenance costs, providing reliable operation over time. Thanks to its versatility and ease of use, it is a benchmark for farmers who prioritize innovation and quality, season after season.

With ORMApiogg EV9, irrigation becomes simpler, smarter, and more cost-effective.

Explorer (OP 120-125-140-150 mm)

OP0014

code	STANDARD EQUIPMENT
EV9	<ul style="list-style-type: none"> - lower frame with adjustable in height and removable drawbar attachment - front mechanical support leg and two lateral stabilizing feet - hydraulic lifting of sprinkler trolley and telescopic stabilizing brackets through manual hydraulic pump - powder-coated sheet metal side protections for the reel - galvanized frame and painted reel - 360° reel rotation - supplementary water inlet - high-efficiency turbine unit, operating even at low pressure - flanged turbine on the gearbox with external bypass, speed regulator, and compensator - four-speeds gearbox with automatic disengagement - PTO on the gearbox for quick rewinding - automatic disengagement for out of shape polyethylene pipe retrieval - automatic brake - hose guide with winding screw - high-resistance polyethylene pipe with differentiated thickness from 90 mm and upper - manual winding crank - glycerine-filled pressure gauge - digital meter counter - safety guards - galvanized sprinkler trolley with 3 wheels and adjustable track width - sectorial sprinkler with 3 standard nozzle set
code	on request: mechanical components on ORMApiogg
OP0009	hydraulic reel rotation and hydraulic lifting of sprinkler trolley through hydraulic two levers distributor and quick couplings
OP0039	hydraulic reel rotation, hydraulic lifting of drawbar foot and sprinkler trolley through hydraulic three levers distributor and quick couplings
OP0025	hydraulic lifting of drawbar foot and sprinkler trolley through hydraulic two levers distributor and quick couplings
OP0028B	inlet valve for overpressure shut-off (for pressurized water equipment)
OP0008B	outlet valve for under pressure shut-off (for pumps and motor pumps with pressure switch)
OP0006A	compressor for hose emptying with PTO shaft
OP0035	hot galvanized reel
OP0017	diesel engine for hydraulic hose rewinding (instead of turbine)
OP0018	electric starting for diesel engine
OP0068	20 lt fuel tank for diesel engine
OP0132	increase for motor pump set on ORMApiogg frame for all 2 cylinders engine
OP0133	increase for motor pump set on ORMApiogg frame for all 3 cylinders engine
OP0134	increase for motor pump set on ORMApiogg frame for all 4 cylinders engine
code	on request: additional accessories
OP0007	5 m flexible connection pipe with joints
OP0007F	filter for flexible connection pipe
OP0011	extension for sprinkler trolley
OP0012	under-trees trolley with adjustable jets
OP0015	4 wheels sprinkler trolley (increase)
OP0016	two iron weights for standard trolley
OP0010	asymmetrical trolley (instead of standard trolley - increase)
OP0066	hidro ballasting tank for standard trolley

on request: additional accessories
