ORMApiogg EXCELLENCE

EC5	Ø mm	100
	mt	450

The **ORMApiogg Excellence EC5** is the ideal choice for efficient and effective irrigation. The ORMApiogg EC5 model is designed for long-lasting durability, delivering high performance with low management and maintenance costs. Thanks to its versatility and ease of use, it has become a benchmark in agriculture worldwide.

ORMApiogg EC5, maximum flexibility, minimal fixed costs.

Reflex (OP 90-100-110 mm)

code	STANDARD EQUIPMENT
EC5	<ul style="list-style-type: none"> - two wheels hydraulic lifting - 360° entire structure rotation - hydraulic system with quick couplings to connect to the tractor - five-lever distributor for 360° structure rotation, right wheel movement, left wheel movement, drawbar lifting foot, stabilizing brackets and sprinkler trolley lifting - frame with adjustable in height and removable drawbar attachment - drawbar hydraulic foot - powder-coated sheet metal side protections for the reel - galvanized frame and painted reel - supplementary water inlet - high-efficiency turbine unit, operating even at low pressure - flanged turbine on the gearbox with external bypass, speed regulator, and compensator - four-speeds gearbox with automatic disengagement - PTO on the gearbox for quick rewinding - automatic disengagement for out of shape polyethylene pipe retrieval - automatic brake - hose guide with winding screw - high-resistance polyethylene pipe with differentiated thickness - manual winding crank - glycerine-filled pressure gauge - digital meter counter - safety guards - galvanized sprinker trolley with 2 wheels and adjustable track width - sectorial sprinkler with 3 standard nozzle set
