## *ORMApiogg EXCELLENCE*

| | | | | | | |
|---|---|---|---|---|---|---|
| EC8 | Ø mm | 110 | 110 | 120 | 125 | 140 |
| | mt | 560 | 600 | 500 | 450 | 350 |

The **ORMApiogg Excellence EC8** is the perfect solution for efficient and sustainable irrigation. Designed for high performance and maximum durability, it ensures low operating and maintenance costs, guaranteeing long-term reliability and cost-effectiveness.

Thanks to ORMApiogg EC8 versatility and ease of use, it has become a benchmark for agriculture worldwide.

Reflex (OP 90-100-110 mm)

Explorer (OP 120-125-140-150 mm)

| code | STANDARD EQUIPMENT |
|---|---|
| **EC8** | - two wheels hydraulic lifting<br>- 360° entire structure rotation<br>- hydraulic system with quick couplings to connect to the tractor<br>- five-lever distributor for 360° structure rotation, right wheel movement, left wheel movement, drawbar lifting foot, stabilizing brackets and sprinkler trolley lifting<br>- frame with adjustable in height and removable drawbar attachment<br>- drawbar hydraulic foot<br>- powder-coated sheet metal side protections for the reel<br>- galvanized frame and painted reel<br>- supplementary water inlet<br>- high-efficiency turbine unit, operating even at low pressure<br>- flanged turbine on the gearbox with external bypass, speed regulator, and compensator<br>- four-speeds gearbox with automatic disengagement<br>- PTO on the gearbox for quick rewinding<br>- automatic disengagement for out of shape polyethylene pipe retrieval<br>- automatic brake<br>- hose guide with winding screw<br>- high-resistance polyethylene pipe with differentiated thickness<br>- manual winding crank<br>- glycerine-filled pressure gauge<br>- digital meter counter<br>- safety guards<br>- galvanized sprinler trolley with 2 wheels and adjustable track width<br>- sectorial sprinkler with 3 standard nozzle set |

| code | on request: mechanical components on ORMApiogg |
|---|---|
| OP0028B | inlet valve for overpressure shut-off (for pressurized water equipment) |
| OP0008B | outlet valve for under pressure shut-off (for pumps and motor pumps with pressure switch) |
| OP0006A | compressor for hose emptying with PTO shaft |
| OP0031X | hot galvanized reel |
| OP0017 | diesel engine for hydraulic hose rewinding (instead of turbine) |
| OP0018 | electric starting for diesel engine |
| OP0068 | 20 lt fuel thank for diesel engine |
| OP0132 | increase for motor pump set on ORMApiogg frame for all 2 cylinders engine |
| OP0133 | increase for motor pump set on ORMApiogg frame for all 3 cylinders engine |
| OP0134 | increase for motor pump set on ORMApiogg frame for all 4 cylinders engine |

| code | on request: additional accessories |
|---|---|
| OP0007 | 5 m flexible connection pipe with joints |
| OP0007F | filter for flexible connection pipe |
| OP0011 | extension for sprinkler trolley |
| OP0012 | under-trees trolley with adjustable jets |
| OP0015 | 4 wheels sprinkler trolley (increase) |
| OP0016 | two iron weights for standard trolley |
| OP0010 | asymmetrical trolley (instead of standard trolley - increase) |
| OP0066 | hidro ballasting tank for standard trolley |
